From the Palette

Summer 2025

Rhinoceros auklet
Photo by Linda

Humpback whales, orcas, harbor seals, dolphins, bald eagles, and of course rhinoceros auklets, were highlights of my recent trip to Vancouver Island, British Columbia. The scenery alone along the eastern shore is a reason to go. My husband, brother-in-law and I also caught salmon, ling cod, rockfish, and greenling which will keep us in fish until next year. (My nice king salmon put up a good fight!)

A work in progress

Seventh Continent 18" X 24" \$4800.

My blog, www.besseart.blogspot.com, contains further info about each step of a painting
